## MATCH SECRETARIES

*This season is a stand alone one. The results from it will not affect the standings, promotion and relegation into the 2022 Summer season, the Summer 2019 final positions will feed into summer 2022. Penalty points will not be awarded if a club is unable to field a team.*

Everything is now ready for you to arrange your matches with your opposing match secretaries. The documents you need for this can be found on the ADLTA website (ADLTA.CO.UK) on the page 'Fixture Set Up'.

It is your responsibility to enter your HOME fixtures on the LTA Results website.

We will tell you once the LTA Results website is available to enter your fixture dates. Please enter the dates on the LTA Results website by **5<sup>th</sup> May**.

You can find contact details for the match secretaries on the ADLTA website, on the 'contacts' page. If your match secretary has changed since last season then please advise us, via the ADLTA website (change match sec details). We will then amend the match sec details here and on the LTA Results website

If a page on the ADLTA website asks for an id and password to access it then use 'tennis' for both, lower case.

Please also ensure that you input the names, telephone numbers and email addresses of all your team captains on to the LTA Results website. Just go into TEAMS and select the relevant team.

It is your responsibility to nominate players for all your teams except the lowest; **six** players per team in **summer**. You can do this via the ADLTA website. If you don't then we take the players who played in the first match of the team in question as the nominated players.

Please complete a copy of the next page for each of your team captains and provide them with instructions for the online results entry.

It is suggested that you check with opponent clubs as to their arrangements around COVID; clubhouse & toilet access, refreshments, etc.

Enjoy
